* In 2012-2013 statistics on asylum applications are provided by the Danish National Police (NUC) based on registrations in POLSAS.

Note: The gross application figures include all persons who have applied for asylum in Denmark, regardless if their case is processed in Denmark or not, hence including persons, who are returned to a safe third country, transferred or re-transferred to another EU Member State under the Dublin Regulation as well as disappearances and withdrawals, etc., during the preliminary asylum procedure.

Note: There is not a direct link between the number of asylum applications in 2013 and the number of decisions in 2013. All asylum seekers in a period do not necessarily receive a decision in the same period. Moreover, an applicant, who is denied asylum in the first instance and has the right to appeal, will be counted both as a refusal granted by the Danish Immigration Service and as a permit (i.e. reversal of the Danish Immigration Service's refusal) or as a refusal granted by the Refugee Board. There can be a time gap across calendar year between the first and final decision.

The percentage of vetoes in manifestly unfounded cases, i.e. cases where the Danish Refugee Council disagrees with the Danish Immigration Service, was approximately 6 percent in 2013.

Note: Most of the asylum seekers in the category 'Other stateless' are from Syria, while most of the quota refugees in the category 'other stateless' are from Bhutan.

Stateless:

The UN convention of 28 September 1954 concerning the status of stateless persons, which Denmark has ratified, contains in article 1, section 1, the following definition of the term stateless person: "For the purpose of this Convention, the term 'stateless person' means a person who is not considered as a national by any State under the operation of its law."

The purpose of the convention is to administer and improve the legal position of those persons who involuntarily have come into the situation that no state recognizes them as nationals. The Convention is not meant to give certain persons the opportunity to choose themselves whether they wish to be nationals of a particular state.

Persons, who seek asylum in Denmark, are registered by the immigration authorities upon arrival. In connection with the first registration the Danish Immigration Service attempts to ascertain the identity and nationality (citizenship) of the asylum-seeker including whether the person is stateless. The registration is based on the asylum-seekers' explanation and any written documents etc. In addition, the Danish Immigration Service will take into consideration information on conditions in the applicant's country of origin. Based on these informations The Danish Immigration Service may alter the registration during processing of the asylum case.

If a foreigner in Denmark finds that he or she is registered with erroneous data, for example in relation to date of birth or nationality (citizenship) in the records of the immigration authorities, the person in question can at any time contact the Danish Immigration Service and submit a request for re-registration. The Danish Immigration Service will hereafter make a decision on whether there are grounds for altering the existing records. The decision can be appealed to the Ministry of Justice.

Further information on a stateless person can be found on the web portal www.newtodenmark.dk.

* Decisions in the period 1 January 2008 - 10 July 2008 are based on manual counting. As of 11 July 2008 an independent basis for registration of decisions on family reunification to Danish nationals according to EU rules has been established.

Decisions regarding other family members cannot be separated electronically from decisions regarding spouses and cohabitants in the Aliens Register. In 2008, 2009, 2010 and 2011 there were 4, 16, 7 and 3 permits to children registered respectively in the Aliens Register. These figures are based on manual counting. As of 2011, after commissioning the ECDH system in the family reunifications field, it is possible to count decisions according to the EU rules regarding other family members separately.

** According to the current immigration law it is no longer possible for parents over 60 years old to apply for family reunification with resident children.

* In 2008 3 new bills were passed regarding Danish nationality, where normally two bills will be passed. The reason for this is that the bill, that was introduced in October 2007, was repealed as a result of the general election on 13 November 2007.

** The main persons are applicants for Danish nationality over the age of 18, who are listed in a naturalisation bill, because they fulfil the conditions to be satisfied to acquire Danish nationality. The subordinates are the children under the age of 18 of the main persons. Children can only acquire citizenship together with a main person, if the main person has custody of the child, and if the child is unmarried and lives in Denmark. The information is based on the Nationality Divisions Check List System (TLS).

Note: Persons listed in a naturalisation bill, with the condition upon release of their present nationality, will only acquire Danish nationality, if the person can prove to have been released from his or her present nationality within a time limit of 2 years from the act has been passed. If the person can not prove this within the time limit, the person will not acquire Danish nationality according to this act.

In short the conditions that must be satisfied to acquire Danish nationality by naturalisation:

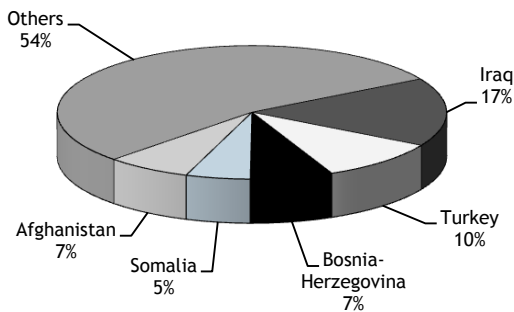

A number of conditions must be satisfied to become listed in a naturalisation bill:

- the applicant must have a permanent residence permit for Denmark and live in Denmark
- the applicant must, as a general rule, have lived in Denmark for a continuous period of at least 9 years
- the applicant must have proof of his or her Danish skills by submitting a certificate of the Danish 3 Examination from the Danish language centres or a corresponding certificate on a similar level
- the applicant must prove to have some knowledge of the Danish society and of Danish culture and history by presenting a certificate of a special citizenship test
- the applicant must currently support him- or herself and must not have received any public cash assistance within the latest year ahead of the introduction of the naturalisation bill. Furthermore the applicant may not within the past five years have received the public assistance mentioned for an aggregated period exceeding six months
- the applicant cannot have overdue debt to public authorities
- if the applicant has been sentenced for some offences, the general rule is that he or she cannot be listed in a naturalisation bill until the expiration of a certain waiting period and for some offences it is not at all possible to be listed in a naturalisation bill
- the applicant must agree to renounce his or her present nationality
- the applicant has to sign a declaration in which he or she swears allegiance and loyalty to Denmark and Danish society, declare willingness to observe Danish legislation and respect fundamental Danish principles of law

Persons born stateless in Denmark who are under the age of 18, may be listed in a naturalisation bill in accordance with UN C onvention on the Right of Child of 20 November 1989 without satisfying the usual requirements. The same applies to persons born stateless in Denmark who have reached the age of 18, but not the age of 21. These stateless persons are entitled to being listed in a naturalisation bill in accordance with the UN Convention on the Reduction of Statelessness of 30 August 1961. See the website www.newtodenmark.dk under "Danish nationality" on the theme of citizenship to person born stateless in Denmark.

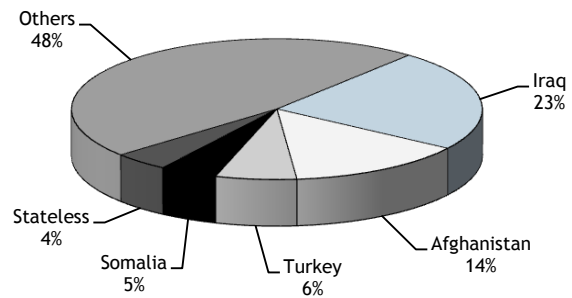

Persons laid down by law 2008 *** - broken down by nationality at time of the application

6.262 persons

Persons laid down by law 2013 *** - broken down by nationality at time of the application

1.789 persons

*** The figures only include main persons, since it is not possible to provide figures on nationalities for subordinates.

* Including positive decisions on family reunification according to EU-rules with reference to Danish nationals.

** Decisions regarding other family members cannot be separated electronically from decisions regarding spouses and cohabitants in the Aliens Register. In 2008, 2009, 2010 and 2011 there were 4, 16, 7 and 3 permits to children registered respectively in the Aliens Register. These figures are based on manual counting. As of 2011, after commissioning the ECDH system in the family reunifications field, it is possible to count decisions according to the EU rules regarding other family members separately.

*** Since 2012 the number of the additional work permits granted to students with a student permit is not included. It has been included in prior years. The number of the additional work permit to students were 3.076 permits in 2007, 4.635 permits in 2008, 3.849 permits in 2009, 3.410 permits in 2010 and 4.808 permits in 2011.

Note: The overview above with all residence permits, etc. does not directly reflect the actual level of immigration to Denmark. Over time an individual can be stated several times in the statistics (double counting). There can also be cases where a residence permit is not used, because the person concerned never enters the country.
